## PROFILE

As a goal driven, enthusiastic and highly motivated individual, I enjoy clear communication and teamwork. I'm ready to put my problem-solving and coding abilities to good use in an entry-level frontend developer role. I am always looking forward to enhancing my potential and broadening my IT skills and knowledge at every opportunity.

## PROJECTS

- **Totoro Weather App**

This is a web application that allows users to search for and display the weather forecast for a particular city. The application uses the OpenWeatherMap API to retrieve the weather data, and displays the forecast in a simple and easy-to-read format.  
Live Preview          Source Code

- **Gadgeteen Shop**

This is an online store built using React, where you can explore and purchase a wide range of gadgets and electronic devices.  
Live Preview          Source Code

- **Prismatic Pay**

PrismaticPay is a JavaScript-based bank app designed to provide a simple and user-friendly way for users to manage their finances, including checking their account balance, viewing transaction history, and requesting a loan. The app also allows users to delete their account if they wish to do so.

## WORK EXPERIENCE

**Transactional Buyer with German**          January 2022- present  
*Goodyear*

- Provide transactional purchasing activities for indirect spend.
- Verify purchase requisitions through SAP/SRM, determine best source of supply, place orders and negotiate price to lower costs.
- Maintain professional relationships with suppliers, conduct expediting and interact with stakeholders.
- Worked alongside my team on a RPA project to reduce time spent on repetitive tasks from 2h to 15min per day, hence improving overall team performance and lowering production costs.

**Technologies:**  
*SAP, SRM, MyTE, Condeco, HRConnect, Jira*

**Channel Data Specialist - DACH**          February 2021 - January 2022  
*Accenture*

**German Trainer**          September 2014 - December 2020  
*Freelance/Victoria Center*
